

## Year 7 Homework (14)

<b>Name</b>	<b>Bottle Opener</b>
<b>Group</b>	<b>Ferrous and Non-ferrous Metals</b>
<b>Date</b>	

**1. The metal that you have been working with to make your bottle opener is known as a ferrous metal. A ferrous metal contains Iron. This means that it will rust easily. A metal that does not contain Iron is called a Non Ferrous metal and will not rust.**

**Research and fill in the table below listing 5 metals that are Non Ferrous.**

Name of metal	Describe its colour	What it is used for
1		
2		
3		
4		
5		

**2. Research and describe three way how you can protect your bottle opener from going rusty, and at the same time make it more attractive.**
