

Year 7 Homework (21)

Name	Computer Graphics
Group	Graphics Questions
Date	

1. Name one program that you can use to produce a business card with a logo on it.

2. What is the name of the area in a computer program where a selection of pictures are kept.

3. When making a business card list the main information that would be put on the card.

4. Why would you choose to design and make a business card on a computer rather than by hand.

5. A business card is 100mm x 50mm. How many can you get on to a piece of A4 paper, and how would you duplicate your design to fill the A3 page.

6. When you are designing a business card, which has a lot of detail and is going to take you a considerable amount of time to complete, when would be the best time to save your work.
