8.23 - Business Card: Design Ideas

INITIAL IDEAS

Here is an example to get you started.

Use a small font size, 6 or 7 for most of the text but your name and title can be much bigger e.g. 12pt.

Using the paper provided by your teacher draw 10 boxes 50mm by 90mm. Then generate some ideas. Write some notes (annotation) beside your sketches to explain your designs.

HOME WORK

Your home work is to come up with at least 8 ideas, fully coloured in, and complete the following survey. This is market research to find out what your customers would like. Templates are drawn for you on the next page, if required.

CHOSEN IDEA

Before we use computer software to design our business card, we need to find out which idea people prefer. Complete this survey table to see which designs your friends prefer.
